# Join our Network of Experts

The consortium is reinforced through a large Advisory Board which is ensuring that the PROACTIVE outcomes meet **the needs of both LEAs and the vulnerable civil society**. The Advisory Board is being extended throughout the life of the project through a permanent new members recruitment process.

The **Practitioner Stakeholder Advisory Board (PSAB)** includes a high-level international panel of experts from different areas of knowledge and Practitioner stakeholders: LEAs, First Responders (e.g. medical, fire brigades), the military (including the European Defence Agency), rail security experts, government agencies etc. [Check out our flyer for more.](#)

The **Civil Society Advisory Board (CSAB)** includes a diverse panel of representatives of the vulnerable citizen groups to best represent human diversity: Local Authorities, Resilience Teams, Private Sector Teams managing public resources, representatives of mental health organisations, associations of the elderly, children, passengers with disabilities etc. [Check out our flyer for more.](#)

The **External Ethics Advisory Board (EEAB)** includes several independent ethics experts. The EEAB will provide advice and suggestions on the solutions and results of the project and will supervise the data protection and ethical issues of project research development, ensuring the PROACTIVE research activities and tools developed comply with ethical standards.
